

## IDEA series antipanic tables on wheels Technical Characteristics

### General:

Free placement table on wheels with antipanic folding table's top.  
It consists of the legs, the steel bar, the table's top and the front panel.  
Working top may be folded to save space.  
Table's parts can be easily removed if there is a need to be replaced  
All metal parts are painted with epoxy powder.

### Table's top:

It is made of laminated chipboard or MDF with melamine, HPL or veneer finishing.  
Borders could be covered with PVC or varnish.  
Folding mechanism is operated by a two double aluminum brackets system.

### Frame:

Table's leg are made of steel 70X30X2mm tube with an oval steel 66X26X2.5mm tube foot.  
Foot is equipped with wheels with brake.  
A 70X30X2mm steel tube bar is placed between the legs.  
All system ensures grate stability.

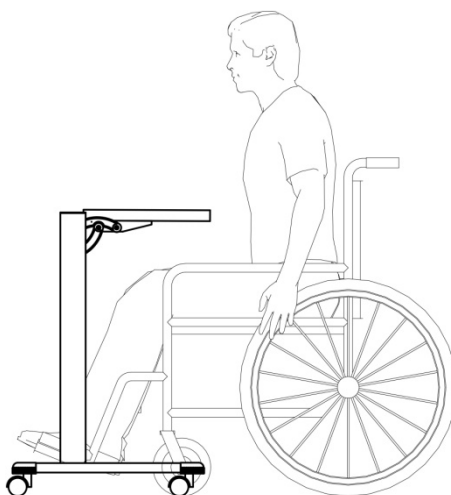

### Front panel:

It is made of laminated chipboard or MDF with melamine, HPL or veneer finishing.  
Borders could be covered with PVC or varnish.

Optional the metal front could be made of perforated steel sheet.

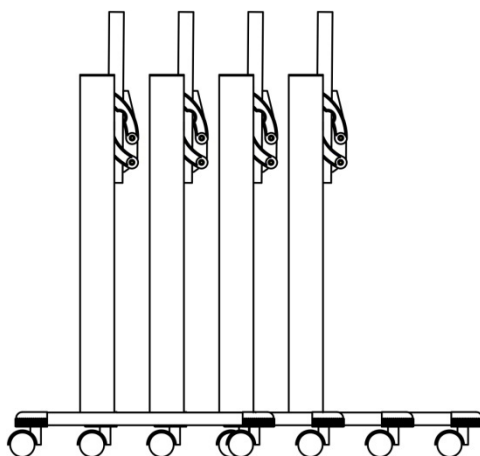

## Special use:

The table is designed to serve disable persons and because it is movable it can be easily removed according to the needs.

## Storage:

In case of storage the table needs the minimum space because of its folding top.
