

functionality and easy storage

ARGOS series includes fixed, folding and tilting tables for space saving.

Mobility and personalization are the key elements to promote efficiency and well-being in the workplace. The double conical legs, made in steel, offers a resistant and stable support, evoking elegance and lightness.

Space-saving tables can be verticalized, tilted and folded. The handling and stackability of these tables, both horizontally or vertically, allows the spaces exploitation, making them perfect for offices, conference rooms and catering.
