

PODIUM DESK series Technical Characteristics

General:

PODIUM DESK series includes special designed desks in order to house PCs, microphone and translation devices and their wires. It can be used also as a teacher's desk or presentation podium.

Structure:

It is made of 25mm MDF with melamine finishing.

It is equipped with one door cabinet with lock for the equipment safety.

Special holes at the door and at the sides ensure the ventilation in the cabinet.

There are also a front panel and height adjustment at the sides.

The furniture can be constructed to meet custom demands according to specific needs.

Versions and optional elements and systems:

- ROLL TOP system with lock for to secure permanent devices on the working surface
- RACK system (12U or other type) inside the cabinet
- Cabinet with both sides doors for easy access to the devices inside
- Retracting keyboard shelf under the working surface.
- Custom design holes on the working surface for devices and wires
- Structure made of particle board or MDF with melamine, laminate or veneer finishing
